

Turn the light out say  
goodnight, no thinking for a  
little while  
Let's not try to figure out  
everything at once  
It's hard to keep track of  
you falling through the sky  
We're half awake in a fake  
empire

Stand up straight at the  
foot of your love  
I'll lift my shirt up

*The National*
